Bakers

Single barrel implies all the whiskey in the bottle came from a single barrel of whiskey.

Small batch is termed for bourbons that have been blended from a handful of barrels and designs for the upper premium selections.

Mash bills are the blend of ingredients that are used to ferment. By law there must be a minimum of 51% or more of corn and a blend of rye, wheat, and possibly a small amount of barley.

BOURBON

- | | |
|-------------------------|----------------------------|
